

News from 5th/6th Grade !!

This week in:

Language Arts: We are focusing on some reading strategies to help with comprehension. Students will be introduced to some new graphic organizers to get their thoughts together when reading a piece of literature.

We have our first vocabulary test this week, so watch for new words in your child's vocabulary!!

We are continuing our work in publishing and will have an introduction to Microsoft Power Point.

Math: We are continuing in division and a lot of time is being spent with long division. This is a skill that must be mastered before we can move on. This can be frustrating for some students because one mistake can really change a problem in the wrong direction, so keep encouraging your child to do their best!!!

Religion: We created a Family Tree for Jacob. This will help us keep track of families as we continue through the book of Genesis.

Social Studies: We are continuing to learn how advanced the Sumerian people were. Ask your child ways Sumerian people created a economic surplus.

Special Events:
Parent/Teacher Conferences are November 17 & 19.

We were invited to attend "Little Shop of Horrors" today, so ask your child how they liked it!

We will be collecting non-perishable food items for the food shelf at our Thanksgiving Mass on Nov. 25. These can be brought in ahead and left in classroom if you want.

Reminders:

***No School on Friday Nov. 20**

***Wednesday, Nov. 25 is a half day (this is a change from original calendar)**
