

News from 5th/6th Grade !!

For the week of November 16-20 :

Language Arts: Finding the main idea of a reading selection is very important. We know where to find it or how to infer it while we are reading.

Keep practicing spelling, we have made some changes to our spelling time to help with learning spelling tips!!

We are learning to use Power Point and are seeing a lot of great presentations come together.

Math: Please continue to work on basic math facts with your student. This is going to help them in math, as things start to get more difficult.

Religion: We are continuing our journey through Genesis and are beginning to learn about Joseph.

Social Studies: We are continuing to learn how advanced the Sumerian people were.

We have started the Christmas Play and all the 5th & 6th have speaking parts, so please help them learn their lines. We are also asking if parents would be willing to help get their child's costume together. If you could let me know by the end of the week if you are willing to help that would be great!!

Special Events:

Parent/Teacher Conferences are November 17 & 19.

We will be collecting non-perishable food items for the food shelf at our Thanksgiving Mass on Nov. 25. These can be brought in ahead and left in classroom if you want.

Reminders:

***No School on Friday Nov. 20**

***Wednesday, Nov. 25 is a half day (this is a change from original calendar)**
